BACKGROUND

- They, as one of the earliest participants in the provision of online marketing services in Singapore, have been helping businesses build web presence and reach out to potential customers via online platforms since June 2005.
- Their Group provides search engine marketing services, creative and technology services and social media marketing services to clients from various business sectors, including professional services, general services as well as automotive and industrial, to name but a few.
- They are one of the first authorised resellers in Singapore for Google, which awarded them the “Excellence Performance Award” as early as 2006, and more recently, the “Mobile Innovation Award” in 2018.
- Over the years, they expanded their coverage to include Malaysia and they have established themselves as a multi-award winning group serving over 900 active clients during the Track Record Period.
- Most of the contracts they enter with their clients are for a term of six months to one year.
- Their service fees are generally set as a fixed sum determined on a case-by-case basis and are set forth in the contracts between them and their clients. In formulating their service fees for an engagement, they take into consideration factors including but not limited to (i) the cost payable to their suppliers; (ii) the other costs for carrying out the project with reference to the estimated time to be spent and the scale of the project; and (iii) the performance index and marketing objective specified by their clients.

BUSINESS STRATEGIES

- Increasing their presence geographically in Malaysia and diversifying into high potential industry sectors.
- Expanding capacity and enhancing productivity by strengthening their technological infrastructure and strategic acquisition of a website development and hosting company.
- Continuing to keep ourselves abreast of the market development for the latest market offering.

COMPETITIVE STRENGTHS

- Their proven track record of formulating and executing effective market campaigns.
- Their broad and solid client base with a high retention rate and long established relationships with suppliers.

- Their experienced management team with a consistent management culture.

KEY RISKS

- Their reliance on their largest supplier in the provision of search engine marketing services, and any disruption in the provision of services from their largest supplier may affect their business operations and financial results.
- Their reliance on clients in the medical field and any changes in advertising laws or regulations or code of professional conduct which restrict their medical clients' ability to advertise may significantly reduce their revenue and profitability.
- Their business operations could be significantly disrupted by information technology system failures.
- Their ability to attract, recruit or retain their executive Directors, senior management and other experienced and qualified staff, which is crucial to their success, stability and expansion of their operations.
- Their ability to retain existing clients or attract new clients as they generally do not enter into long-term agreements with their clients.

DIVIDEND POLICY

- No fixed dividend policy.
