

Lenovo Group (0992 HK)

Last price: HK\$22.32

Support levels: HK\$20.06/HK\$19.68

Resistance levels: HK\$26.32/HK\$27.42

Technical View:

Price executed a tactical bounce from its gap support zone, structurally reinforcing its bullish posture via a rising window. The RSI remains firmly established above its 50-neutral baseline and is curling upward. With major overhead supply completely neutralised below this threshold, the technical framework firmly favours an immediate advance to test historical all-time highs.

Average timeframe: Around two weeks.

KE Holdings (2423 HK)

Last price: HK\$40.38

Support levels: HK\$37.98/HK\$37.04

Resistance levels: HK\$45.18/HK\$48.72

Technical View:

Price maintained its structural stability above the gap support zone originated on 2 July. Simultaneously, market velocity is expanding as the RSI rises steadily toward its 50-neutral baseline. This confluence of clean window preservation and recovering momentum heavily skews the probability matrix toward a sustained upward expansion.

Average timeframe: Around two weeks.
